Product Description

12.8V 100AH Lithium Ion LiFePO4 Bank For Replace VRLA Battery Deep-Cycle Battery

Characteristics of CSPower lithium battery :

The battery is designed for high-performance use in all deep cycle applications such as marine, recreational vehicles RV, solar/wind energy systems, off-grid systems, camping, and backup power systems. Due to its popularity in the marine industry, the CLI50-24 is commonly referred to as a deep cycle lithium marine battery. The Canbat CLI50-24 is a UL-certified 24V 50Ah LiFePO4 battery. This 24V 50Ah battery model can also be used to replace standard AGM batteries in the use of floor machines, medical devices, electrical vehicles EV, and much more.

Canbat 24V 50Ah lithium battery is engineered with lithium-ion cells offering superior performance and high reliability as they can be used for power storage solutions or as power sources. Unlike traditional Gel and other SLA batteries, they can be fully discharged without loss in longevity. To further enhance safety and performance, our 24V 50V LiFePO4 battery is equipped with an intelligent internal battery management system (BMS), which provides safety features including low-temperature disconnect and over-discharge protection. The CLI50-24 model is equipped with M6 terminals and bolts are included with this battery.
